Significant Accounting Judgments, Estimates and Assumptions

The Company's significant accounting policies are described in Note 2 to the Company's 2021 Form 10-K, filed with the Securities and Exchange Commission, or SEC, on March 31, 2022. There have been no material changes to the Company's significant accounting policies.

Revenue

The Company's revenues are disaggregated as follows:

	Three months ended		Six months ended	
	June 30, 2022	June 30, 2021	June 30, 2022	June 30, 2021
Dispensary	\$ 109,457	\$ 85,942	\$ 212,799	\$ 159,899

	<u>\$ 129,571</u>	<u>\$ 102,387</u>	<u>252,658</u>	<u>\$ 188,482</u>

During the three and six months ended June 30, 2022, the Company netted discounts of \$48,618 and \$22,712, against the revenues, respectively. During the three and six months ended June 30, 2021, the Company netted discounts of \$25,542 and \$13,337, against the revenues, respectively. Discounts are provided by the Company during promotional days or weekends. Discounts are also provided to employees, seniors and other categories of customers and may include price reductions and coupons.

Income taxes

The Company calculated its actual effective tax rate for the interim period and applied that rate to the interim period results. In accordance with ASC 740-270, at the end of each interim period the Company is required to determine its best estimate of its annual effective tax rate and apply that rate in providing income taxes on an interim period. However, in certain circumstances when the Company concludes it is unable to reliably estimate the annual effective tax rate for the year, the actual effective tax rate for the interim period may be used. The Company believes that, at this time, the use of the actual effective tax rate is more appropriate than the estimated annual effective tax rate method as the estimated annual effective tax rate method is not reliable due to the high degree of uncertainty in estimating annual pre-tax income due to the growth stage of the business, the correlation of SG&A expenses to revenue that are permanently disallowed via Section 280E of the Internal Revenue Code, and the timing of the completion of the Cresco transaction.

Modification of debt

The Company accounts for modifications of debt arrangements in accordance with ASC 470-50 *Modifications and Extinguishments* ("ASC 470-50"). As such, the Company continues to amortize any remaining unamortized debt discount as of debt modification date over the term of the amended debt. The Company expenses any fees paid to third parties and capitalizes creditor fees associated with the modification as a debt discount and amortizes them over the term of the amended debt.

Business Combinations

We include the results of operations of the businesses that we acquire as of the acquisition date. We allocate the purchase price of the acquisitions to the assets acquired and liabilities assumed based on their estimated fair values. The excess of the purchase price over the fair values of identifiable assets and liabilities is recorded as goodwill. Acquisition-related expenses are recognized separately from the business combination and are expensed as incurred.

3. INVENTORY

Details of the Company's inventory are shown in the table below:

	June 30, 2022	December 31, 2021

Finished goods - dried cannabis, concentrate and edible products	69,743	41,233
Total inventory	<u>\$ 121,514</u>	<u>\$ 94,567</u>

The inventory values are net of inventory write-downs as a result of obsolescence or unmarketability charged to cost of sales. As a result of local market conditions in Colorado, there was a \$2,400 write-down during the three and six months ended June 30, 2022.

The Company was in compliance with all financial covenants and was not in default of any provisions under any of its debt arrangements as of June 30, 2022.

Private Placement

On February 3, 2022, Columbia Care closed a private placement of \$185,000 aggregate principal amount of 9.50% senior-secured first-lien notes due 2026 (the “2026 Notes”) and received aggregate gross proceeds of \$153,250. The 2026 Notes are senior secured obligations of the Company and were issued at 100.0% of face value. The 2026 Notes accrue interest in arrears which is payable semi-annually and mature on February 3, 2026, unless earlier redeemed or repurchased. The Company may redeem the 2026 Notes at par, in whole or in part, on or after February 3, 2024, as more particularly described in the fourth supplemental trust indenture governing the 2026 Notes. In connection with the offering of the 2026 Notes, the Company exchanged \$31,750 of the Company’s existing 13.0% Term Debt, pursuant to private agreements in accordance with the trust indenture, for an equivalent amount of 2026 Notes plus accrued but unpaid interest and any negotiated premium thereon.

The premium and paid interest were paid out of funds raised from the February 2022 Private Placement. The Company accounted for the exchange of \$31,750 aggregate principal amount of the existing Term Debt as a debt modification in accordance with ASC 470-50. The total unamortized debt and debt issuance costs of \$2,153, related to modified portion of the Term Debt, will be amortized over the term of the 2026 Notes using the effective interest method. The Company incurred \$7,189 in creditor fees in connection with the modified Term Debt and 2026 Notes and \$301 in third-party legal fees related to 2026 Notes which were capitalized and will be amortized over the term of the 2026 Notes using the effective interest rate method.

Total interest and amortization expense on the Company’s debt obligations during the three and six months ended June 30, 2022 and 2021 are as follows:

	<u>Three months ended</u>		<u>Six months ended</u>

The weighted average interest rate on the Company's indebtedness was 8.6%.

5. ACQUISITIONS

Futurevision Holdings, Inc., Futurevision 2020, LLC and Medicine Man Longmont, LLC

On November 1, 2021, the Company acquired (the "Medicine Man Transaction") a 100% ownership interest in Futurevision Holdings, Inc. and Futurevision 2020, LLC (collectively, "Medicine Man"), through the Agreement and Plan of Merger (the "Merger Agreement"). Concurrently with the Merger Agreement, the Company was granted an option (the "Option") to purchase Medicine Man Longmont, LLC ("Medicine Man Longmont"). The Option was exercised by the Company on August 12, 2022 following the sale of the Company's former TGS Longmont location in July 2022. The Company has recorded the Option as an intangible asset as of the November 1, 2021, closing date, at its estimated fair value of \$5,899, which represents the ultimate purchase price associated with the underlying property, since the time period to exercise the Option is short and given the certainty expressed by management to exercise the Option. As of June 30, 2022 TGS Longmont is reflected within assets held for sale on the Company's consolidated balance sheet. Medicine Man was formed in 2010 for the purpose of selling medicinal and recreational cannabis products in the state of Colorado. Medicine Man owns and operates vertically integrated cultivation facilities, manufacturing facilities and retail dispensaries in the state of Colorado. The Company executed the Medicine Man Transaction in order to continue to grow revenues; expand its cultivation facilities, manufacturing facilities and dispensaries; and expand in the Colorado market.

The following table summarizes the preliminary fair value of total consideration transferred and the fair value of each major class of consideration for Medicine Man:

Consideration transferred

Cash consideration	\$	7,240
Closing shares		23,955
Contingent consideration		3,664
Purchase option obligation		5,899
Total unadjusted purchase price		<u>40,758</u>
Working capital adjustment		127
Total adjusted purchase price		<u>40,885</u>
Less: Cash and cash equivalents acquired		<u>(1,250)</u>
Total purchase price, net of cash and cash equivalents acquired	\$	<u><u>39,635</u></u>

Equity purchase consideration comprised 5,840,229 Common Shares of which 4,857,184 were issued during the year 2021. As per the terms of the Merger Agreement, the Company paid \$836 in cash and issued 1,099,549 milestone shares in settlement of contingent consideration during April 2022.

Recognized amounts of identifiable assets acquired, and liabilities assumed, less cash and cash equivalents acquired:

Purchase price allocation

Assets acquired:		
Inventory	\$	3,611
Prepaid expenses and other current assets		397
Option deposit		5,899
Property and equipment		1,498
Right of use assets		10,613
Goodwill		9,908
Intangible assets		30,370
Accounts payable		(696)
Accrued expenses and other current liabilities		(1,910)
Lease liabilities		(11,233)
Deferred tax liabilities		(8,822)
Consideration transferred	\$	<u><u>39,635</u></u>

The purchase price has been allocated on the basis of the preliminary estimates of fair values of assets and liabilities assumed, resulting in a goodwill of \$9,908. The goodwill consists of expected synergies from combining operations of the Company and Medicine Man, and intangible assets not qualifying for separate recognition such as formulations, proprietary technologies and acquired know-how. None of the goodwill is deductible for tax purposes. No adjustments to the preliminary

allocation of purchase price impacted goodwill during the three and six months ended June 30, 2022. As additional information becomes available, the Company may revise the allocation to certain assets and liabilities and finalize the acquisition accounting within the required measurement period of one year.

Medicine Man's state licenses and trademarks represented identifiable intangible assets acquired in the amounts of \$26,900 and \$3,470 respectively, which were determined to have definite useful lives of 10 and 5 years respectively.

The fair value of the acquired assets and liabilities are provisional pending receipt of the final valuations for those assets and liabilities.

In conjunction with the Medicine Man Transaction, the Company expensed \$1,099 of acquisition-related costs, which have been included in selling, general and administrative expenses on the Company's consolidated statement of operations and comprehensive loss for the year ended December 31, 2021.

Accounting for the August 12, 2022 acquisition of the Medicine Man Longmont transaction will be captured in the Company's Q3 financial statements.

Agreement and Plan of Merger with Green Leaf Medical LLC

Effective June 11, 2021, the Company and certain subsidiaries entered into an agreement and plan of merger (the "gLeaf Agreement") with Green Leaf Medical LLC ("gLeaf"). Under the gLeaf Agreement, the Company may be obligated to provide contingent consideration, payable in common shares of the Company (the "Milestone Shares"), to the shareholders of gLeaf if gLeaf achieves certain performance-based milestones. The Company has retained a third-party expert to independently assess whether Milestone Shares have been earned for the time period of July 1, 2021 to June 30, 2022.

Accordingly, there has been no change to the value of the related contingent liability reported on the Company's balance sheet as of June 30, 2022.

Certain share-based equity awards were excluded from the computation of dilutive loss per share because inclusion of these awards would have had an anti-dilutive effect.

13. COMMITMENTS AND CONTINGENCIES

In the ordinary course of business, the Company may provide indemnification of varying scope and terms to vendors, lessors, business partners, and other parties with respect to certain matters including, but not limited to, losses arising out of breach of such agreements or from intellectual property infringement claims made by third parties. In addition, the Company has entered into indemnification agreements with members of its board of directors and senior management that will require the Company, among other things, to indemnify them against certain liabilities that may arise by reason of their status or service as directors or officers. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is, in many cases, unlimited. Other than the accruals mentioned in this Note, the Company has not accrued any liabilities related to any pending claims potentially subject to indemnification arrangements in its condensed interim consolidated financial statements.

For the quarter ended September 30, 2021, the Company had anticipatorily accrued \$68,000 for potential share issuances and cash payments for purposes of acquisition and settlement of pre-existing relationships, inclusive of prospective acquisition costs relating to third-party entities and other litigation costs. On April 18, 2022, in connection with the accrual, the Company issued 18,755,082 common shares and on April 18, 2022 and April 24, 2022 paid approximately \$26,000 to acquire, by merger, VentureForth Holdings, LLC, which is the owner of VentureForth. VentureForth holds two licenses from the Washington D.C. Alcoholic Beverage Regulation Administration (“ABRA”), specifically, one license to cultivate and manufacture medical cannabis and one license to dispense medical cannabis. The merger was approved by ABRA. The Company previously had a management services agreement with VentureForth. In further connection with the accrual, the shares issued, and amounts paid also amicably resolved, with no admissions of liability and in exchange for releases, certain direct, indirect, derivative and indemnification claims relating to a confidential arbitration to which VentureForth, a separate subsidiary of the Company and certain members of the Company’s management team were respondent parties.

Additionally, the Company may be contingently liable with respect to other claims incidental to the ordinary course of its operations. In the opinion of management, and based on management's consultation with legal counsel, the ultimate outcome of such other matters will not have a materially adverse effect on the Company. Accordingly, other than as noted in Footnote 9 above, no provisions has been made in these condensed interim consolidated financial statements for losses, if any, which might result from the ultimate disposition of these matters should they arise.

14. FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Fair Value Measurements

The following table presents the Company’s financial instruments that are measured at fair value on a recurring basis:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
June 30, 2022				
Derivative liability	\$ —	\$ —	\$ (1,098)	\$ (1,098)
Contingent consideration	—	—	(37,360)	(37,360)
	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (38,458)</u>	<u>\$ (38,458)</u>

Derivative liability	\$ —	\$ —	\$ (6,795)	\$ (6,795)
Contingent consideration	—	—	(40,941)	(40,941)
	<u>\$ —</u>	<u>\$ —</u>	<u>\$ (47,736)</u>	<u>\$ (47,736)</u>

During the period included in these financial statements, there were no transfers of amounts between levels.

The following table summarizes the valuation techniques and key inputs used in the fair value measurement of Level 3 financial instruments:

Financial asset/financial liability	Valuation techniques	Significant unobservable inputs	Relationship of unobservable inputs to fair value
Derivative liability	Market approach	Conversion Period	Increase or decrease in conversion period will result in an increase or decrease in fair value
Contingent Consideration	Discounted cash flow approach	Risk adjusted discount rate and forecasted EBITDA	Increase or decrease in risk adjusted discount rate and forecasted EBITDA will result in an increase or decrease in fair value

The carrying amounts of cash and restricted cash, accounts receivable, deposits and other current assets, accounts payable, accrued expenses, and other current liabilities, current portion of long-term debt and lease liability as of June 30, 2022 and December 31, 2021 approximate their fair values because of the short-term nature of these items and are not included in the table above. The Company's notes receivable, other long-term payables, long-term debt and lease liabilities approximate fair value due to the market rate of interest used on initial recognition.

In addition to the disclosures for assets and liabilities required to be measured at fair value at the balance sheet date, companies are required to disclose the estimated fair values of all financial instruments, even if they are not presented at their fair value on the consolidated balance sheet. The fair values of financial instruments are estimates based upon market conditions and perceived risks as of June 30, 2022 and December 31, 2021. These estimates require management's judgment and may not be indicative of the future fair values of the assets and liabilities.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

This management's discussion and analysis ("MD&A") of the financial condition and results of operations of Columbia Care Inc. ("Columbia Care", the "Company", "us", "our" or "we") is supplemental to, and should be read in conjunction with, Columbia Care's condensed interim consolidated financial statements and the accompanying notes for the three and six months ended June 30, 2022 and 2021. Except for historical information, the discussion in this section contains forward-looking statements that involve risks and uncertainties. Future results could differ materially from those discussed below for many reasons, including the risks described in "Disclosure Regarding Forward-Looking Statements," "Item 1A-Risk Factors" and elsewhere in the Company's 2021 Form 10-K filed with the SEC on March 31, 2022 and subsequent securities filings.

Columbia Care's financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). Financial information presented in this MD&A is presented in thousands of United States dollars ("\$" or "US\$"), unless otherwise indicated.

OVERVIEW OF COLUMBIA CARE

Our principal business activity is the production and sale of cannabis. We strive to be the premier provider of cannabis-related products in each of the markets in which we operate. Our mission is to improve lives by providing cannabis-based health and wellness solutions through community partnerships, research, education and the responsible use of our products as a natural means to improve the quality of life of our patients and customers.

COLUMBIA CARE OBJECTIVES AND FACTORS AFFECTING OUR PERFORMANCE

As one of the largest fully integrated operators in the cannabis industry, our strategy to grow our business is comprised of the following key components:

- Expansion and development within and outside our current markets
- Patient-centric, provider-based model to leverage health and wellness focus
- Consistency of proprietary product portfolio comprised of branded consumer and patient products
- Intellectual property and data-driven innovation

Our performance and future success are dependent on several factors. These factors are also subject to inherent risks and challenges, some of which are discussed below.

Branding

We have established a national branding strategy across each of the jurisdictions in which we operate. Maintaining and growing our brand appeal is critical to our continued success.

Regulation

We are subject to the local and federal laws in the jurisdictions in which we operate. Outside of the United States, our products may be subject to tariffs, treaties and various trade agreements as well as laws affecting the importation of consumer goods. We hold all required licenses for the production and distribution of our products in the jurisdictions in which we operate and continuously monitor changes in laws, regulations, treaties and agreements. In recent years, a temporary federal legislative enactment that prohibits the Department of Justice from expending appropriated funds to enforce federal laws that interfere with a state's implementation of its own medical marijuana laws has been included in multiple Appropriations laws that have passed Congress. This so-called budget rider is known as the Rohrbacher-Farr Amendment. The Rohrbacher-Farr Amendment has been included in successive appropriations legislation or resolutions since 2015. The Rohrbacher-Farr Amendment was extended most recently through September 30, 2022. Notably, the Rohrbacher-Farr Amendment has applied only to medical marijuana programs and has not provided the same protections to enforcement related to adult-use activities.

Product Innovation and Consumer Trends

Our business is subject to changing consumer trends and preferences, which is dependent, in part, on continued consumer interest in new products. The success of new product offerings, depends upon a number of factors, including our ability to (i) accurately anticipate customer needs; (ii) develop new products that meet these needs; (iii) successfully commercialize new products; (iv) price products competitively; (v) produce and deliver products in sufficient volumes and on a timely basis; and (vi) differentiate product offerings from those of competitors.

Growth Strategies

We have a successful history of growing revenue and we believe we have a strong strategy aimed at continuing our history of expansion in both current and new markets. Our future depends, in part, on our ability to implement our growth strategy including (i) product innovations; (ii) penetration of new markets; (iii) growth of wholesale revenue through third party retailers and distributors; (iv) future development and expansion of e-commerce and home delivery distribution capabilities; and (v) expansion of our cultivation and manufacturing capacity. Our ability to implement this growth strategy depends, among other things, on our ability to develop new products that appeal to consumers, maintain and expand brand loyalty, maintain and improve product quality and brand recognition, maintain and improve competitive position in our current markets, and identify and successfully enter and market products in new geographic areas and segments.

The Company's current tax expense has increased in the current period, however, the decrease in total tax expense is largely due to the Company's previous acquisition activity that had generated deferred tax liabilities now giving rise to a deferred tax benefit. The Company operates in the legal cannabis industry but is subject to Section 280E of the Internal Revenue Code ("Section 280E") which prohibits the Company from deducting non cost of goods sold related expenses. The result of Section 280E's application to the Company results in permanent disallowance of ordinary and necessary business expenses. As a result of Section 280E, the Company's effective tax rate can be highly variable and may not necessarily correlate with pre-tax income or loss.

Non-GAAP Measures

We use certain non-GAAP measures, referenced in this MD&A. These measures are not recognized measures under GAAP and do not have a standardized meaning prescribed by GAAP and therefore may not be comparable to similar measures presented by other companies. Accordingly, these measures should not be considered in isolation from nor as a substitute for our financial information reported under GAAP. We use non-GAAP measures including EBITDA, Adjusted EBITDA and Adjusted EBITDA

margin which may be calculated differently by other companies. These non-GAAP measures and metrics are used to provide investors with supplemental measures of our operating performance and liquidity and thus highlight trends in our business that may not otherwise be apparent when relying solely on GAAP measures. These supplemental non-GAAP financial measures should not be considered superior to, as a substitute for, or as an alternative to, and should be considered in conjunction with, the GAAP financial measures presented. We also recognize that securities analysts, investors and other interested parties frequently use non-GAAP measures in the evaluation of companies within our industry. Finally, we use non-GAAP measures and metrics in order to facilitate evaluation of operating performance comparisons from period to period, to prepare annual operating budgets and forecasts and to determine components of executive compensation.

Adjusted EBITDA

The increase in Adjusted EBITDA for the three and six months ended June 30, 2022, as compared to the prior year period, was primarily driven by improved gross margins and a greater operating income.

Our future financial results are subject to significant potential fluctuations caused by, among other things, growth of sales volume in new and existing markets and our ability to control operating expenses. In addition, our financial results may be impacted significantly by changes to the regulatory environment in which we operate, both on a local, state and federal level.

Liquidity and Capital Resources

Our primary need for liquidity is to fund working capital requirements of our business, capital expenditures and for general corporate purposes. Historically, we have relied on external financing as our primary source of liquidity. Our ability to fund our operations and to make capital expenditures depends on our ability to successfully secure financing through issuance of debt or equity, as well as our ability to improve our future operating performance and cash flows, which are subject to prevailing economic conditions and financial, business and other factors, some of which are beyond our control.

We are currently meeting our obligations as they become due and are earning revenues from our operations. However, we have sustained losses since inception and may require additional capital in the future. We estimate that based on our current business operations and working capital, we will continue to meet our obligations as they become due in the short term. As we continue to seek growth through expansion or acquisition, our cash flow requirements and obligations could materially change. As of June 30, 2022, we did not have any significant external capital requirements.

Recent Financing Transactions

Private Placement

On February 3, 2022, we closed a private placement of \$185,000 aggregate principal amount of 9.50% senior-secured first-lien notes due 2026 (the “2026 Notes”). The 2026 Notes are senior secured obligations of the Company and were issued at 100.0% of face value. In connection with the offering of the 2026 Notes, the Company received binding commitments to exchange approximately \$31,750 of the Company’s existing 13.0% Term Debt, pursuant to private agreements in accordance with the trust indenture, for an equivalent amount of 2026 Notes plus accrued but unpaid interest and any negotiated premium thereon. As a result of the note exchanges, the Company received aggregate gross proceeds of \$153,250 in cash pursuant to the offering of the 2026 Notes.

Effects of Inflation

Rising inflation rates have had a substantial impact on our financial performance to date and may have an impact on our financial performance in the future as our ability to pass on an increase in costs is not entirely within our control.

Critical Accounting Estimates

We make judgements, estimates and assumptions about the future that affect assets and liabilities, and revenues and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the review affects both current and future periods.

The preparation of our condensed interim consolidated financial statements requires us to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the review affects both current and future periods.

Judgements estimates and assumptions with the most significant effect on the amounts recognized in the consolidated financial statements are described below.

FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Our financial instruments consist of cash and cash equivalents, accounts receivable, notes receivable, deposits and other current assets, accounts payable, accrued expenses, current taxes payable and other current liabilities like interest payable and payroll liabilities, derivative liability, debt and lease liabilities. The fair values of cash and restricted cash, accounts and notes receivable, deposits, accounts payable and accrued expenses and other current liabilities like interest payable and payroll liabilities, short-term debt and lease liabilities approximate their carrying values due to the relatively short-term to maturity or because of the market rate of interest used on initial recognition. Columbia Care classifies its derivative liability as fair value through profit and loss (FVTPL).

Financial instruments recorded at fair value are classified using a fair value hierarchy that reflects the significance of the inputs to fair value measurements. The three levels of fair value contained within the hierarchy are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly; and

Level 3 – Inputs for the asset or liability that are not based on observable market data.

Our assets measured at fair value on a nonrecurring basis include investments, assets and liabilities held for sale, long-lived assets and indefinite-lived intangible assets. We review the carrying amounts of such assets whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable or at least annually, for indefinite-lived intangible assets. Any resulting asset impairment would require that the asset be recorded at its fair value. The resulting fair value measurements of the assets are considered Level 3 measurements.

Financial Risk Management

We are exposed in varying degrees to a variety of financial instrument related risks. Our risk exposures and the impact on our financial instruments is summarized below:

Credit Risk

Credit risk is the risk of a potential loss to us if a customer or third party to a financial instrument fails to meet its contractual obligations. The maximum credit exposure at June 30, 2022 and December 31, 2021, is the carrying amount of cash and cash equivalents, subscription receivable, accounts receivable and notes receivable. We do not have significant credit risk with respect to our customers. All cash deposits are with regulated U.S. financial institutions.

We provide credit to our customers in the normal course of business and have established credit evaluation and monitoring processes to mitigate credit risk but have limited risk as the majority of our sales are transacted with cash. Through our Columbia Care National Credit program, we provide credit to customers in certain markets in which we operate.

Liquidity Risk

Liquidity risk is the risk that we will not be able to meet our financial obligations associated with financial liabilities. We manage liquidity risk through the management of our capital structure. Our approach to managing liquidity is to estimate cash requirements from operations, capital expenditures and investments and ensure that we have sufficient liquidity to fund our ongoing operations and to settle obligations and liabilities when due.

To date, we have incurred significant cumulative net losses and we have not generated positive cash flows from our operations. We have therefore depended on financing from sale of our equity and from debt financing to fund our operations. Overall, we do not expect the net cash contribution from our operations and investments to be positive in the near term, and we therefore expect to rely on financing from equity or debt.

Market Risk

In addition to business opportunities and challenges applicable to any business operating in a fast-growing environment, our business operates in a highly regulated and multi-jurisdictional industry, which is subject to potentially significant changes outside of our control as individual states as well as the U.S. federal government may impose restrictions on our ability to grow our business profitably or enact new laws and regulations that open up new markets.

Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of our financial instrument will fluctuate because of changes in market interest rates. Our cash deposits bear interest at market rates.

Currency Risk

Our operating results and financial position are reported in thousands of U.S. dollars. We may enter into financial transactions denominated in other currencies, which would result in Columbia Care's operations and financial position to be subject to currency transaction and translation risks.

As of June 30, 2022 and December 31, 2021, we had no hedging agreements in place with respect to foreign exchange rates. We have not entered into any agreements or purchased any instruments to hedge possible currency risks at this time.

Price Risk

Price risk is the risk of variability in fair value due to movements in equity or market prices. We are subject to the risk of price variability pursuant to our products due to competitive or regulatory pressures.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no significant material changes to the market risks as disclosed in the Company's 2021 Form 10-K.

Item 4. Controls and Procedures.*Background*

As previously reported in the Company's 2021 Form 10-K, our disclosure controls and procedures were not effective due to a material weakness in our internal control over financial reporting, specifically relating to the lack of appropriate controls over management's fair value modeling of complex accounting and financial reporting issues in the impairment testing of goodwill and intangible assets.

Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report were effective to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that it is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

In response to the material weakness described above, the Company implemented a remediation plan to address the material weakness. These remediation efforts, outlined below, were intended both to address the identified material weaknesses and to enhance the Company's overall financial control environment. The Company, including its CEO and CFO, does not expect that its internal controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Following the year ended December 31, 2021, the Company implemented a new control, whereby the Company has utilized a new third party specializing in fair value modeling who will review and analyze, at the corporate level, potential impairment testing of goodwill and intangible assets on an annual basis or as necessary.
